## *An Introduction for Dealers*

### Brief Product Summary

This application is an enhancement to the ADP standard AGRI that allows display of multi-company document detail just as posting from the originating company using the normal user interface.

- Allows user to display posting description on the main screen and also print the posting description for control detail, document detail and account detail as part of the standard SF5 (Shift F5 key).
- Provides on AGRI document detail display for multi-company postings for one or more companies, companies, company number is designated in a column, company number is designated in a column.

### Requirements

Below are the required elements of the CI-AGRI:

- ✓ Accounting release on the DMS.
- ✓ Available for GL900.
- ✓ Multi-Company

### System Features

- ✓ Easy to use! Uses same user interface to Standard AGRI.
- ✓ User does not have to change company to display source document.

### Training

Dealers who purchase the CI-AGRI application from ADP will receive installation and user documentation. Users normally become comfortable with the software in about 1/2 hour. This application is an add-on to function prompt while in the Accounting system (-AC logon).
