F-12 Key – Partial Parts Search

An Introduction for Dealers

Brief Product Summary

This application is an enhancement function to the Inventory Account in which the user searches for availability of parts by partial part number or partial part description hitting the F12 key on the invoicing screen.

- If user does not know the number or name of a part it allows the user to search for it. This aids the parts user to look up part numbers.
- It provides the parts user more flexibility when searching for like parts but different numbers or part numbers of the same numbering group.
- The F-12 prompt uses standard pricing defaults.

Requirements

Below are the required elements of the F-12 Key:

- ✓ Parts Inventory release on the DMS.
- ✓ Available for PS950 or higher.

System Features

- ✓ Job stackable index for quick searches.
- ✓ The pop-up allows the user to scroll through the selected items highlighting a selection they would like to invoice or exiting if inquiring.
- ✓ Offer clients alternative stock parts when there is no availability of a stock part.

Training

Dealers who purchase the F-12 Key for Parts Search application from ADP will receive installation and user documentation. Users normally become comfortable with the software in about 1/2 hour. This application is an add-on to function prompt while in the Parts Inventory system (-I logon).

Costs

Please contact Car!nk for pricing information.
