

SELL CARS, PARTS AND SERVICE PROFITABLY.™

## CASHIER DRAWER APPLICATION

### A Complete Point of Sale System Tailored Exactly to Your Dealership Needs

"The efforts you and your staff have made have now set ADP apart from the competition with a product that is long over due. This cash drawer product your team has produced has now brought the cashing and accounting process of new car dealerships into the new millennium and is a valuable tool that ALL dealerships must have. It is inconceivable how businesses of this magnitude have survived as long as they have without such a product to properly control their assets." Chris Mackey, Vice President, New Country Motor Car Group

- Complete automation of Parts, Service, and Cash Receipt transactions
- Total integration with a cash drawer and receipt printer
- Detailed reporting package itemizing every transaction by cashier and by cash drawer allowing for quick balancing and comprehensive GL reporting
- User friendly functionality includes quick payment look ups and the ability to apply partial payments
- Police your money and know exactly who received it, how much they received, and for what invoice it was applied
- GL posting allows for a quick and easy way after balancing to electronically clear your cash sales clearing account and post the dollars into your cash in bank account
